

### 3V3 Power Rail

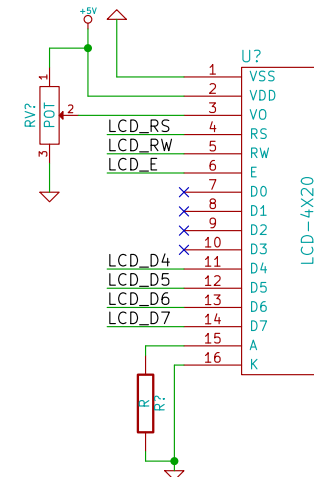

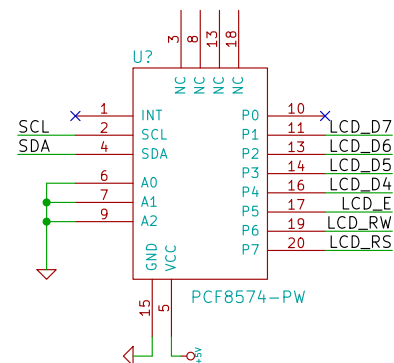

250 mA Max Output  
Note: What is max current on SD card

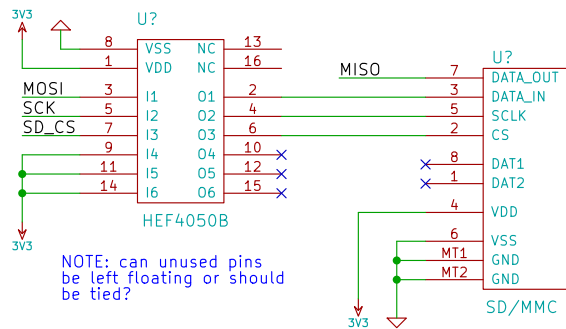

### Driver Connector

### LCD

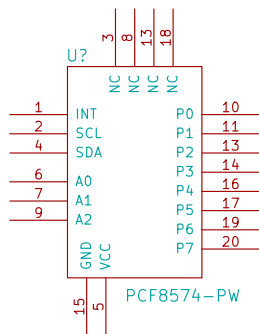

### SD Card Interface

NOTE: can unused pins be left floating or should be tied?

### Rotary Encoder

ENCODE\_1  
ENCODE\_2

Still have to figure out the input interface.  
Rotary encoder or capacitive touch or 3x4 keypad matrix

NOTE: should we add a buzzer
